Kevin,
Thanks for the information.

SM

Subject: Issues left over from yesterday's call

Scott, I have a couple of things left over from our call yesterday.

As we discussed yesterday, we are going to need to have FMC resample their wells for more constituents. Bernie Zavala will have the lead working with the Tribes and State to determine when sampling will be required and what parameters will be analyzed. In order to be able to move forward on the Design Work Plan, I need the following from the Tribes by the end of the day on Tuesday December 3:

- 1) List of the responses from FMC the Tribes do not agree with.
- 2) Brief response to why the Tribes do not agree.
- 3) A proposed resolution.

We will discuss these when we have our team meeting the following week.

Have a great Thanksgiving.

Kevin
